# Bryan Nicholas Josephin Hotlando Simangunsong

Jakarta, Indonesia | +6281385385698 | bryannjhs@gmail.com | linkedin.com/in/bryannjhs

Computer Engineering graduate from Universitas Brawijaya with a 3.8 GPA and international experience at National Taiwan University. Skilled in DevOps and Machine Learning with technical expertise at Bank Tabungan Negara and Bangkit Academy. Committed to leveraging CI/CD, Python, and C++ to deliver efficient and scalable solutions.

## EDUCATION

**S. T. (Equivalent to B. Eng), Universitas Brawijaya, Computer Engineering** **July 2021 – July 2025**

**CGPA:** 3.8/4.0

**Honors:** Indonesian International Student Mobility Awards 2024 Awardee

**Activities:** Informatics Student Association, Community Outreach Program, Volunteer Committees

**Visiting Student, National Taiwan University, EECS** **Aug 2024 – Dec 2024**

**CGPA: 4.2/4.3**

Full-ride scholarship by the Ministry of Education, Culture, Research, and Technology through IISMA 2024

**Activities:** ICL 2024 – Changhua County, IFDP, EECS & GSAT ISVP, NTUISA, BATIK, Bible Study Club

## EXPERIENCE

**PT. Bank Tabungan Negara (Persero) Tbk**, Jakarta **Oct 2025 – Current**

*DevOps Engineer Intern*

- Executed hands-on DevOps operations by utilizing Jenkins, Docker, SonarQube, and Nexus to support the DevOps team in maintaining secure and efficient infrastructure.
- Innovated deployment strategies by building 50+ pipelines for various BTN product features.

**Brawijaya University Laboratory of Livestock Harvest Technology**, Malang **Jan 2025 – Current**

*Machine Learning Research Assistant*

- Researched numerical insights from the laboratory's project in determining overall dairy harvest quality from farms around East Java with the goal of improving overall harvest quality.
- Developed and evaluated four machine learning models using image processing techniques to identify the most accurate classifier for milk quality.

## PROJECTS AND CERTIFICATIONS

**Milk Quality Detector (Thesis)** **Jul 2025**

- Improved on-farm fresh milk quality testing with a Raspberry Pi 4-based computer vision system using RF, OpenCV, GLCM
- Achieved 86.66% accuracy on 75 test samples with an average inference time of 0.6651 seconds per classification on-device.

**Bangkit Academy by Google, Goto, Traveloka** **Feb 2024 - Jul 2024**

- Completed a Machine Learning cohort focused on core concepts to advanced applications using TensorFlow
- Applied Machine Learning techniques in computer vision, IoT, and robotics through hands-on projects

## LEADERSHIP

**Business Expo for Entrepreneurs (BEFORE)** **Jul 2023 – Nov 2023**

*Head of Steering Committee*

- Led 50+ committee members spanning 7 divisions in launching and running Brawijaya University's BEFORE: Computer Entrepreneurship competition in a national level with 3 main activities: Business Case, Expo, and Seminar
- Designed BEFORE's end-to-end participation and revenue channels, securing 5 company sponsors, 10+ exhibition tenants, 100+ competition participants, and 1000+ event attendees, generating in total ~IDR 30 million of cash flow

## HONORS AND AWARDS

- Full ride Scholarship Awardee; **Indonesian International Student Mobility Awards** (IISMA) by MoECRT **May 2024**
- Grantee (Top 10%) of **Bangkit Academy** (by Google, Goto, Traveloka) **May 2024**
- 1st Winner in **Brawijaya Social Impact Infographics Competition**; Case: Social Problems **Jul 2023**
- 1st Winner in **MoECRT Higher Education Creativity Ideathon**; Case: Written Ideas **May 2021**

## ADDITIONAL

**Programming Languages**: C++, Python, SQL, GO, Shell, Groovy

**Hardware & Systems**: VHDL, Linux, Arduino, Raspberry Pi, OpenCV, Docker, Jenkins, GitLab

**Tools**: Canva, Google Suite, Microsoft Suite, Adobe Suite, Notion, Sony Vegas, Figma

**Languages**: English (Proficient – Duolingo English Test Score: 140/160), Chinese (HSK 1), Indonesian (Native)
